craftmanship and design

VAN BESOUW

Since 1839, a continuous drive for innovation has brought Van Besouw where it is today: a leading supplier of contemporary carpets. Craftsmanship and innovation are at the heart of everything we do. The Van Besouw collection is put together with the greatest care. From fiber to yarn and backing to pile, all carpets are thought out to the finest detail, using the latest production techniques. Only the best materials are good enough. High-quality and durable, made to last and with consideration for people and the environment.

At Van Besouw, all carpets are developed based on a careful selection of materials, textures and colors. The designs and color palettes are a balanced mix of the latest trends and timeless classics, all designed in the Netherlands. They exude a sense of class, luxury and comfort and give every room the right character. A Van Besouw carpet or rug stands for exclusive design, elegance and sophistication. It makes you feel passionate; you don't just see it, you feel it.

history

EXCELLENCE SINCE 1839

1839, Goirle

Van Besouw was founded in the Netherlands in 1839 by Jan van Besouw.

1885, Goirle

Start of the first factory with production of linen, jute and sailcloth.

1970, Goirle

The "turn around" in Van Besouw's history.

Introduction of the cotton carpets made on raschel knitting machines.

2010, Genemuiden

Van Besouw was taken over, into the current organisation, Hillfloor.

2013, Genemuiden

Re-introduction of the cotton collection. With a new colour range and new qualities.

2021, Genemuiden

Opening of the Van Besouw Atelier.

2024, Amsterdam

Opening Brand Center

1968, Goirle

Start of Van Besouw as a brandname with the slogan: "Het Andere Tapijt".

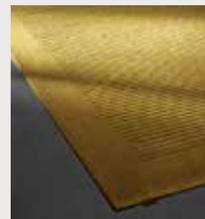

1967, Goirle

Benno Premsele (Industrial Designer) was invited, to design the next step of Van Besouw.

2003, Goirle

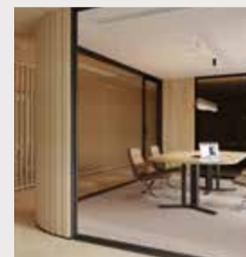

Introduction of the PURE RUGS collection.

2012, Genemuiden

Introduction of the Van Besouw PREM collection.

A polyamide contract collection, based Van Besouw's key values.

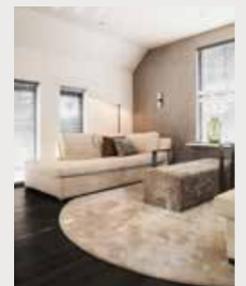

2017, Genemuiden

Introduction of the soft collection.

2022, Genemuiden

Introduction of the allure collection.

made to last

MATERIALS

Carpet is not only a functional element in an interior, but also a statement of luxury and comfort. The choice of materials plays a crucial role here.

Whether it's natural carpets made from wool or cotton, or synthetic fibers, each material is designed for durability and offers a combination of comfort, style, and elegance. With proper care and maintenance, these carpets will retain their beauty for years, adding a lasting touch of luxury to your interior.

WOOL

The wool collection exclusively uses high-quality Merino wool sourced from Australian Merino sheep, known for their ultra-fine and soft fibers. This wool combines softness with resilience, ensuring that the carpet retains its shape over time. Thanks to its natural elasticity and durability, it is a sustainable and functional material. Additionally, uncolored wool is used, preserving the natural tones and pure aesthetic of the material.

COTTON

The cotton collection features exclusively high-quality Egyptian cotton, known for its extra-long fibers that provide exceptional softness and strength. This natural material is breathable, moisture-regulating, and offers a luxurious feel against the skin. By leveraging the unique properties of this premium fiber, Van Besouw creates durable, high-end textiles that seamlessly blend comfort and refined aesthetics.

POLYAMIDE

Polyamide is a synthetic fiber known for its strength, elasticity, and durability. The two most commonly used types are Polyamide 6, which excels in color absorption and enables deep, rich tones, and Polyamide 6.6, which offers exceptional wear resistance. An innovative variant of PA6 is Econyl, a regenerated nylon made from recycled materials. This makes Econyl a more sustainable alternative.

Environmentally conscious and future-proof

SUSTAINABILITY

At Van Besouw we use only the best materials. When developing new products, there are two choices. Either natural materials, or the best synthetic products. Always ecologically responsible.

For Van Besouw, sustainability consists of two important elements. First, of course, the raw materials. But just as important is the lifespan. A Van Besouw has a longer lifespan than an average carpet. That makes all the difference! Economically and environmentally.

CERTIFICATIONS

The WOOLMARK label is a textile quality assurance and product -certification program that guarantees the fiber content and quality of wool products. Woolmark guarantees that the products tested are composed of natural, renewable and biodegradable wool.

The GUT label represents the requirements for environmentally friendly flooring. The label is awarded to floor coverings and carpets that are produced with respect for the environment, personal safety and comfort, throughout the product's life cycle.

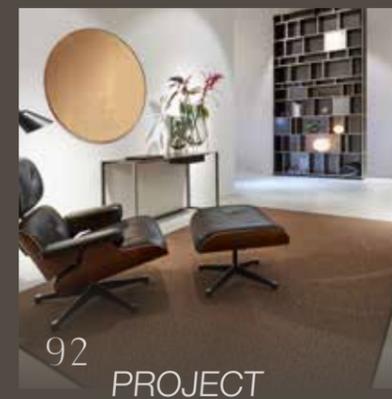

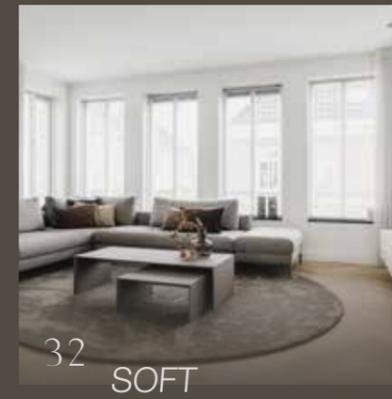

ECONYL is an innovative recycled polyamide yarn extracted in a patented way from plastic waste such as fishing nets and industrial waste. ECONYL thereby contributes to reducing the global amount of waste from landfills and oceans. This makes industrial production possible with respect for people and the environment.

Indoor Air Comfort GOLD - certified product shows additional compliance of product emissions with the criteria of many of the voluntary specifications issued by most relevant ecolabels and similar specifications in the EU and requirements for sustainable building certifications. Therefore certified products are those with the best-in-class low emissions, thus good for indoor air quality. A few labels that fall under Eurofins Gold can be found below.

product overview
COLLECTION

Cotton \ 3801

The Van Besouw 3801, a timeless design icon since 1969, has a distinctive knitted structure. This structure gives a playful look with a loop pile that naturally falls in all directions.

Facts

Type of manufacture	knitted
Pile material	100% cotton
Back	Biocore
Total height	8,9 mm
Pile weight	1365 g/m ²
Width	400 cm

NORDIC SERENITY

Used quality

3801-002

In this spacious living room decorated in Scandinavian style, you will find an oasis of peacefulness. Natural light, minimalist furniture and subtle decorative accents create an atmosphere of simple elegance.

Cotton \ 3805

The 3805, a design classic since 1978, is a 100% cotton knitted blend that balances functionality, comfort, and style.

Facts

Type of manufacture	knitted
Pile material	100% cotton
Back	Biocore
Total height	8,8 mm
Pile weight	1300 g/m ²
Width	400 cm

Cotton \ 3802

The 3802, a design classic since 1976, features elegant cotton velvet with a soft, durable pile. Its tri-color design creates a subtle, solid look that suits any interior.

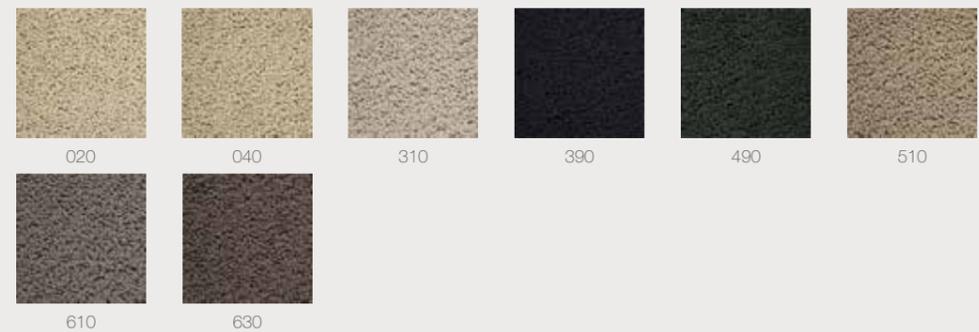

Facts

Type of manufacture	knitted
Pile material	100% cotton
Back	Feltback
Total height	7,5 mm
Pile weight	1800 g/m ²
Width	400 cm

Cotton \ 3810

The 3810 is a beautifully crafted knitted masterpiece made of 100% cotton. It blends functionality, comfort, and style into a timeless, sophisticated design.

Facts

Type of manufacture	knitted
Pile material	100% cotton
Back	Biocore
Total height	11,7 mm
Pile weight	2500 g/m ²
Width	400 cm

Cotton \ 3820

The Van Besouw 3820 reflects ultimate comfort. Made from a blend of three-colored yarns, it boasts a rich and sophisticated appearance.

Facts

Type of manufacture	knitted
Pile material	100% cotton
Back	Feltback
Total height	11,6 mm
Pile weight	2200 g/m ²
Width	400 cm

Wool \ 1803

The Van Besouw 1803 is a true Van Besouw classic—a knitted loop pile carpet crafted from 100% premium wool. By its timeless design, the 1803 adds sophistication and warmth.

Facts

Type of manufacture	knitted
Pile material	100% wool
Back	Blocore
Total height	11,2 mm
Pile weight	990 g/m ²
Width	400 cm

Wool \ 1806

The Van Besouw 1806 is a knitted, timeless velour made from 100% wool. The velour effect is created by the dense pile surface, giving it an elegant and refined appearance.

Facts

Type of manufacture	knitted
Pile material	100% wool
Back	Actionback
Total height	9,2 mm
Pile weight	1350 g/m ²
Width	400 cm

Wool \ 4403

The Van Besouw 4403 is a classic rib carpet crafted from a blend of wool and goat hair. The jute weft adds a unique character, giving the carpet a natural and authentic look.

Facts

Type of manufacture	woven
Pile material	50% wool / 50% goat hair
Back	Cottonback
Total height	8,5 mm
Pile weight	401 g/m ²
Width	400 cm

Wool \ 4404

The Van Besouw 4404, a design classic since 1971, features a distinctive diagonal structure. Made from undyed wool and cashmere, it reflects the raw beauty of nature.

Facts

Type of manufacture	knitted
Pile material	80% wool / 20% cashmere hair
Back	Cottonback
Total height	9,3 mm
Pile weight	730 g/m ²
Width	400 cm

Soft \ 2605

The Van Besouw 2605 offers ultimate comfort with its ultra-soft polyamide yarn. The yarn provides a velvety feel complemented by a subtle sheen.

Facts

Type of manufacture	tufted
Pile material	100% PA 6.6
Back	Actionback
Total height	10,7 mm
Pile weight	1780 g/m ²
Width	400 cm

THE VAN BESOUW ATELIER

————— CREATE YOUR OWN UNIQUE RUG

The chosen rug, the designed shape and the carefully selected edging. All elements converge at the Van Besouw atelier.

COMPUTER-CONTROLLED CUTTING

All rugs are cut by computer. A cutting plan is drawn up for each rug and the carpet is cut from the roll in a dimensionally stable manner. This minimises cutting loss and ensures an efficient process.

FINISHING OF THE RUG

Finishing the rugs is craftsmanship. All rugs are taken in hand one by one and finished with the desired look and feel.

finishing touches
BORDERS

Volume

The essence of a volume finish lies in folded edges, giving the rug a rich, full look. To ensure comfort and prevent slipping, all rugs come with standard anti-slip underlay.

Blind \ COTTON

Blind bordering is a minimalist finish where the border is subtly stitched around the rug without visible seams. This border is made out of polyester, showing a herringbone structure.

Blind \ LEATHER

The exclusive faux leather is a finish that adds extra luxury to a rug. The material is long-lasting and easy to maintain. A calm color palette due to the natural colors.

Blind \ SUEDE

The suede finish is made of ecological microfiber. This luxurious finish offers many possibilities through its wide range of colors and applicability.

Blind \ PROJECT

The project blind finish is made of strong synthetic material that is ideally suited for high-traffic areas. The material is waterproof, resistant to abrasion, UV light and stains.

COLOUR RANGE

The collection has a wide range of colours and materials. All colours are meticulously tuned so that each rug can be provided with a matching finish.
