character

26002[©]

A close-up photograph of tree bark, showing a rough, textured surface with vertical ridges and grooves. Patches of bright green moss are scattered across the bark, particularly in the lower right and middle sections. The lighting is natural, highlighting the intricate details of the bark's texture.

biophilic

flooring

design

artwork from nature

Nature is the fountain of our inspiration. Impressive structures from the natural world are transformed into artwork in carpet tiles. Van Besouw a creative union of nature and innovative flooring!

Biophilic design in practice

Compare both pictures and see the surprising effect of biophilic artwork. A great opportunity to translate the naturally feeling into your interior design.

WASTE RESCUE

ECONYL®

TRANSFORMATION
INTO NYLON 6 YARN

ECONYL®
DEPOLYMERIZATION PLANT

ECONYL® yarn; 100% regenerated

ECONYL® fiber is a 100% regenerated and regenerable yarn made from pre- and post-consumer Nylon 6 waste, such as fishingnets and other material.

ECONYL® Carpet fibers are made for architects, builders and designers looking for synthetic floor covering that aim to protect the future of our earth.

They are included on the list of materials eligible for LEED® points (Leadership in Energy and Environmental Design) as part of the definition of worldwide standards for eco-friendly buildings. For more information, please visit www.econyl.com

Vital Commodities

An endless regeneration of pile material, without loss in quality of material.

Vital Spaces

The indoor spaces need to be healthy, because you are spending most of your time there. Van Besouw Carpet Tiles are your important partner as airfilters. Dust particles will be captured and retained until vacuuming during daily maintenance.

creative

flexibility

Combine, colour and create! Van Besouw is your partner to support and help you to find always the best product.

Combinations

The Van Besouw Carpet tiles are designed from the same technical basis. That means unlimited possibilities.

Wall-to-Wall / Area rugs

A big benefit for this Van Besouw collection is the possibility to use this product as broadloom carpet. The only rule is a minimum of 200 square meter. Please ask your contact person for the possibilities.

creative

colour

concept

Van Besouw has created a unique colour concept. Based on standard and inspiration colours. Standard colours are available from stock, inspiration colours with a minimum of 200 m².

This makes your design possibilities unlimited. Because this product is producible in all colours (RAL/PMS/NCS etc.).

Please contact our sales support for the possibilities and conditions.

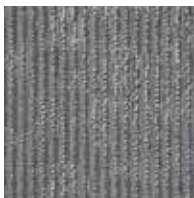

Inspiration colours

The most creative service: you can create every colour you want, with a minimum order quantity of 200 sqm.

To give you a suggestion of possibilities we have created 18 inspiration colours.

Please take a look to the details and find out how to play with colour-differences and contrast.

basic colours

The keystone of the collection. Nine colours which is the standard collection of 26001. All the time available from stock. If you need samples please use our quick-sample-service. Order at www.besouw.nl or send a quick e-mail to info@besouw.nl
